Local government should be about roads, rates and rubbish.

Everything else is secondary, and yet, our Council is neglecting the basics.

- Our roads are taking forever to fix, and at great cost. How long did it take to get the Maida Vale Road roundabout installed?
- Our rates continue to climb despite cost of living pressures, fuelled by unnecessary spending at shire level.
- Our rubbish system is being completely overhauled without our consent. A small red bin, emptied fortnightly, is not good enough for the larger blocks we have in the shire.

Vote for me to focus on getting these basics right.

My commitment to you also includes:

- Enhancing safety measures in our shire; a zero tolerance for anti-social behaviour. People are feeling less safe than ever, because council is too soft and it's taking too long to fix the pool, to build the skate park. Enough is enough.
- A vision for town planning that actually matches our rich heritage among nature; enough of the concrete and hotch-potch design.
