Additional Information

I am grounded, practical, and proactive, someone who lives here and works here. Married with six adult children, I understand very well the need to cater effectively for families and young people in our community. Living in this wonderful community for 40 years with my family I have consistently coached, fundraised and volunteered for multiple organisations.

My involvement with the SIDS Foundation (Sudden Infant Death Syndrome) was after tragically losing a child. A founding member of the National SIDS committee, former WA President and honorary life member of SIDS and KIDS, I worked with the Coroner, Police and funeral homes initiating major changes whilst also supporting newly bereaved parents.

My passion is working for our community and the welfare of families within our City.

I HEAR your concerns - the cost of living which has placed huge mental and financial pressure on our residents, the lack of transparency/community engagement and rate increases.

I have the knowledge and skills to move the foothills forward. I understand the local issues and want to ensure that council decisions reflect the voices of the local area. The decisions we make now will shape what life looks like for future generations.

I am committed to balancing the needs of our community whilst keeping RATES LOW, making sure ratepayer funds are used wisely, with a focus on long-term value rather than short-term fixes.

I will always act in your best interest, not my own. I have no alternative agenda.

I welcome your comments and suggestions and will always work with you to achieve the best outcome. I will listen and be your strong independent voice on Council.

Please make your vote count in this election.

Kind regards
Sue Bilich
