This place and community are special. Many of us who grew up here, eventually return. We realise how good we had it, I believe we can make it even better.

I'm a third-generation local, born at Kalamunda Hospital, educated at Walliston PS and Carmel College. I moved after University for my early career, and like many others, I came home. Now my kids run through the same parks and playgrounds I once did.

As a Physiotherapist and owner of Barnes & Co in Central Mall I'm engaged with our community's wellbeing every single day. I've asked and I've listened; **community safety, cutting red tape, financial responsibility, sensible development, protecting our identity** and **revitalising Haynes Street & the Water Park** are key focuses.

It's clear we need **logical, committed** and **independent** voices on council. It's time for my generation to step up. I both respect our heritage and see our potential. I'll challenge the status quo, protect what makes us special, and secure the future our children deserve.
