

Candidate Details

Ballot paper name	SAYANI, Dayu
Candidate name	Dayu (Ida Ayu) SAYANI
District	City of Kalamunda
Nominating for	Councillor for North West Ward
Election type	Ordinary
Enrolment status	SAYANI, Dayu is eligible to stand for election as a resident of the City of Kalamunda.

I'm Dayu, a proud small business owner and long-time Maida Vale / High Wycombe local who holds community close to my heart.

I was born in Bali and raised in Australia, this combination of culture has taught me that community means showing up for each other, lending a hand, and making sure no one is left out. Since making Maida Vale my home, I've raised my family here, built my business here, and shared in the everyday joys and challenges that local families face.

I'm standing for council because I believe Kalamunda should be a place where families feel supported, where small businesses can thrive, and where we care for the environment that sustains us.

As a working mum, I understand the realities families are navigating balancing work and school, managing rising costs, and wanting nothing more than a safe, welcoming community for our children to grow up in.

If elected, I'll work hard, listen, and put people first with smart, common-sense solutions.

Vote Dayu for a strong community voice.

Additional Information

I am deeply passionate about supporting our local businesses the unique character that makes our suburbs such a special place to live.

Im not a career politician Im a community member, small business owner, and parent who knows what it means to build from the ground up, to make tough decisions, and to keep moving forward when challenges arise. Our council needs more everyday voices people who understand the realities of family life, small business, and community because they live them every day.

I may not be the loudest in the room, but I will always listen with care, ask the right questions, and put people first. For me, this isn't about politics it's about people, community, and creating a future we can all be proud of together.

Im ready to bring a fresh voice, a strong commitment, and a community-first approach to council because our future deserves nothing less. And as a mum, a small business owner, and your neighbour, I'll always stand up for what matters most our families, our businesses, and our community.
