### **3.0 PUBLIC QUESTION TIME**

A period of not less than 15 minutes is provided to allow questions from the gallery on matters relating to the functions of Council. For the purposes of Minuting, these questions and answers are summarised.

#### **3.1 Mr Barry Bennett – D&I 45, The Parking of One Commercial Vehicle – Lot 57 (5B) Goodall Street, Lesmurdie**

Q. In relation to the bus parking at 5B Goodall Street Lesmurdie, Council resolution was to install adequate screening or move the vehicle to another area. The owners have moved the bus to the rear corner and covered it with a green tarpaulin. The owner then requested Mr Bennett to sign a letter acknowledging that he was happy with the new position. Can you please advise if the bus is to be moved or screened?

A. The Director of Development & Infrastructure Services advised that the extension of the original resolution expires on 23 July 2013 and as far as he is aware there has been no request from the bus owner to relocate the bus from the original position. Shire officers will follow up with the owner on 23 July 2013.

### **4.0 PETITIONS/DEPUTATIONS**

4.1 Nil.

## 10.3 CHIEF EXECUTIVE OFFICER REPORTS

Declaration of financial / conflict of interests to be recorded prior to dealing with each item.

### 10.3.1 Proposed Remediation of Contaminated Landfill Site - Lot 20 Adelaide Street, Hazelmere (City of Swan)

Previous Items	Nil
Responsible Officer	Director Development & Infrastructure Services
Service Area	Development Services
File Reference	AD-01/GEN
Applicant	Rowe Group
Owner	Hazelland Pty Ltd
Attachment 1	Precinct 8 - HEA South Buffer
Attachment 2	Site Plan - Remediation Works
Attachment 3	Figure 9 in the draft document - Vehicle Access Route for Waste Transfer

### PURPOSE

- To provide comment to the City of Swan regarding the Proposed Remediation of Contaminated Landfill Site at Lot 20 Adelaide Street, Hazelmere.

### BACKGROUND

- Land Details:**  
Land is located in the City of Swan on the northern border of the residential suburb of High Wycombe.

Land Area:	17.68 ha
City of Swan Local Planning Scheme 17 Zone:	General Rural
Metropolitan Regional Scheme Zone:	Rural

### Locality Plan

4. The subject land is zoned Rural under the MRS and General Rural under the City of Swan's Local Planning Scheme No. 17. The subject land is within Precinct 8 of the Hazelmere Enterprise Area Structure Plan ("HEASP") (Attachment 1). The Minister for Planning has initiated an amendment to allow for the rezoning of the land under the MRS in the Precinct 8 of HEASP from Rural to Urban.
5. The land use intent of Precinct 8 of the HEASP is to facilitate composite residential/light industrial lots and light industrial activities with the residential component facing Adelaide Street and light industrial activities to the rear.
6. The HEASP proposes that the land within the Precinct 8 be zoned Special Use under City of Swan LPS 17. The objective of Precinct 8 is to protect the amenity of the residential area to the south of Adelaide Street and encourage segregation of residential and industrial traffic. The intent of the Local Structure Plan for Precinct 8 should address, amongst other requirements, remediation of the contaminated site.

## DETAILS

7. The subject site is a disused landfill facility classified as "Contaminated - Remediation Required" under the *Contaminated Sites Act of Western Australia 2003*.
8. An Application for Approval to Commence Development- Proposed Remediation Work has been lodged with the City of Swan. The City of Swan referred the application to the Shire of Kalamunda for comment. The closing date for the submission is 23 July 2013.
9. The Development Application seeks to remediate the subject site in accordance with the proposed Site Plan - Remediation Works "the Plan" (Attachment 2). The objectives are to ensure that environmental requirements are complied with, to minimise adverse environmental and human health effects during the remediation operation, and to outline the responsibilities and procedures in preparing the site for its future use.
10. The remedial plan will also provide a framework for the contractor to be able to confirm the compliance of this proposal with various policies and requirements and to provide the community with the evidence of the management of the project in an environmentally acceptable manner.
11. Remediation will involve excavation of the entire site. It will include the processing of existing landfill as well as, processing of construction and demolition waste for reuse as a fill, and filling the site with the capping layer of clean fill. Refer (Attachment 2) Site Plan – Remediation Works.
12. The Site Plan – Remediation Works (Attachment 2) addresses in some detail the following proposed work components:
  - Soil tracking management (on-site and off-site).
  - Soil handling management (on-site and off-site).
  - Asbestos management.

- 
- Truck movement management.
  - Water contamination management.
  - Air quality, dust and emissions management.
  - Noise management.
  - General waste management.
  - Chemicals and dangerous good management.
  - Occupational health and safety.
  - Incidents and complaints management.
13. It is anticipated that the remediation works will take up to five years to complete. The operation times for the works are proposed to be: Monday to Friday from 7.00am to 5.30pm and Saturday from 8.00am to 4.00pm.
14. Monitoring of the remediation works will be under taken by the proponent's project manager in consultation with Department of Environment and Regulation ("DER"). As part of this process an independent auditor will be employed to monitor the remediation works and report to DER in accordance with the provision of the *Contaminated Sites Act of Western Australia 2003*.

#### **STATUTORY AND LEGAL CONSIDERATIONS**

15. Due to the cost of the proposed remediation works (\$8m) the development proposal will be determined by the Metropolitan East Joint Development Assessment Panel ("MEJDAP").
16. The proposal will be assessed by the City of Swan in accordance with the provisions of Town Planning Scheme No. 17. Following consideration of the proposal by the City of Swan, the application will be forwarded to the MEJDAP for determination.
17. Under the requirements of the Environmental Protection Act and Regulations the applicant will have to submit an Application for Works Approval to enable the site to operate as a Resource Recovery and Remediation Facility and a Soil Acceptance and Amendment Facility for the duration of the remediation.

#### **POLICY CONSIDERATIONS**

18. Nil.

#### **COMMUNITY ENGAGEMENT REQUIREMENTS**

19. The request for a submission in relation to this Development Application was sent to the Shire of Kalamunda by the City of Swan as a part of the consultation process.
20. It is understood that only the affected residents fronting Adelaide Street were informed of the proposal and requested to comment, in this first instance. Consequently the Shire wrote to all affected landowners within a 600m radius of the site requesting they provide comment to the City of Swan on the proposed remediation works.

- 
21. Further community consultation will be undertaken to affected residents by the proponent in consultation with DER on the proposed Remediation Plan prior to the approval of the DER. The community consultation will be undertaken in accordance with the community consultation guideline prepared by DER for the management of contaminated sites.

## **FINANCIAL CONSIDERATION**

22. Nil.

## **STRATEGIC COMMUNITY PLAN**

### **Strategic Planning Alignment**

23. Nil.

## **SUSTAINABILITY**

### **Social Implications**

24. It is considered that this application is likely to have a significant impact on the amenity and potentially the occupants' health of a number of residences in the vicinity of the proposal, in particular the residences located to the South of Adelaide Street from heavy vehicle movements, noise and air quality issues from processing of construction and demolition waste.

### **Economic Implications**

25. Nil.

### **Environmental Implications**

26. This site was used for sand mining between 1978 and 1982 and excavated to a depth of up to 4m below natural ground. The site was subsequently used for the dumping of the following materials:
- Landfill with inert building waste.
  - Car bodies and drums.
  - Asbestos sheets.
  - Recycling sludge containing hydrocarbons.
  - Emulsion factory wastes.
  - Drums of kerosene.
  - Bitumen.
  - Pesticide contaminated soils.
  - Hospital waste to a level of up to 8 m above ground.
27. The removal of these materials will have significant environmental benefits for the subject site and its environs.

## RISK MANAGEMENT CONSIDERATIONS

28.

Risk	Likelihood	Consequence	Action/Strategy
<p><b>Vehicle Access</b> City of Swan to support vehicle access via Adelaide Street in the event that access through Lot 152 is not achieved.</p>	Medium	High	Ensure comprehensive submission is provided to the City of Swan outlining the concerns of the Shire.
<p><b>Noise</b> Noise level associated with machinery undertaken various works likely to exceed acceptable levels</p>	High	High	Request the City of Swan that a further noise management plan be prepared to consider noise mitigation measures to address noise levels.
<p><b>Air Quality</b> Potential for excavated material including asbestos cause odour and health impact on nearby residents</p>	Medium	High	The potential impact and management of odour to be included in the Air Quality Management Plan. Management measures to address air quality issues to be rigorously applied by the proponent and DER. A detailed asbestos Management Plan, including management of the crushing process must be in place and approved by the DER, DOH and Shire of Kalamunda prior to works commencing.
<p><b>Land Use</b> Proposed process not compatible with zoning and land use normally acceptable under the zoning.</p>	Medium	High	Request the City of Swan that the process of sorting, crushing and compaction process is located off site in a more appropriate location.
<p><b>Groundwater Monitoring</b></p>	Low	High	Ensure that groundwater contamination monitoring occurs on an ongoing basis and that the Shire of Kalamunda is informed of this process.

---

## OFFICER COMMENT

29. In the review of the Remediation Works a number of issues that may have implications for the residents in the vicinity of the site in question have been identified.

### Vehicle Access Route for Waste Transfer

30. The applicant states that the access to the site during the remediation works will be from Talbot Road, via Lot 152 to the north, in accordance with the agreement with the owner of Lot 152. The application proceeds to state that "In the event that temporary access via Lot 152 becomes unavailable, trucks will access the site from Stirling Crescent via Adelaide Street", (Attachment 3) Vehicle Access Route for Waste Transfer.
31. This statement is very disconcerting as it leaves open a possibility for the residential street to be used for heavy industrial traffic for part or all of the duration of the remediation works that are proposed to take five years. From a planning perspective this is entirely inappropriate and will result in significant amenity impacts for residents located in the vicinity of Adelaide Street.
32. The Site Remediation Plan should be amended to ensure that Adelaide Street cannot be used as an alternative route. Additionally, the assurance of the continuous availability of the access from Talbot Road, through the Lot 152, should be negotiated and provided as a part of the application. Without the agreement of the owner of Lot 152, it is considered that the application should not proceed.

### Noise

33. The noise levels associated with the machinery used in the crushing and compaction process estimated to be received by noise sensitive premises submitted by the Acoustic Consultant Report of up to 76dBA is of concern given the expected length of the project is five years. The Noise Contour Map for excavation works supplied by Herring Storer shows that residences for 400-600m will be experiencing noise above regulation levels (45dB), with adjacent residences getting levels of up to 75dB. This is not acceptable, particularly when taking into account the five year duration of the project.
34. The Excavation Works exceed the assigned levels and are above levels considered reasonable for this type of work and duration based on advice from the Department of Environment Regulation. A further noise management plan is required and will need to consider measures to reduce the noise output such as temporary movable barriers, quieter equipment, no tonal reversing beepers on any equipment and scheduling noisiest operations at the least sensitive times.
35. Tonality in the Transfer Station has not been addressed in the noise report submitted; this may result in noise exceeding the assigned levels.

---

## **Air Quality Management**

36. This Air Quality Management Plan does not include potential impact of odour on the nearby residents. Considering that there is sludge and other materials that might cause air pollution issues during excavation, the potential impact and management of these issues should be incorporated in the Air Quality Management Plan. Notwithstanding the measures in place to address air quality issues, the threat of wind-blown asbestos represents a significant issue for the Shire.
37. Advice received from DER indicates a significant amount of asbestos is contained in the proposed remediation site. Disturbance of the site and crushing of material has the potential to release a large amount of airborne asbestos fibres. As asbestos related diseases increase with intensity and duration of exposure this has the potential to cause significant health impacts of residents surrounding the development. A detailed asbestos management plan, including management of the crushing process, must be in place and approved by the DER, DoH and Shire of Kalamunda prior to works commencing.

## **Groundwater monitoring**

38. The applicant indicates that the current groundwater is approximately between 3.7-11.7m below ground level. The applicant advises that based on the proposed redevelopment plans, the groundwater will not be intercepted during the works.
39. Groundwater monitoring will be implemented to assess water quality prior, during and post remediation works. It is vitally important from the Shire's perspective that groundwater contamination is monitored and reported on continually and the Shire of Kalamunda is kept informed of this process.

## **Land Use Activity**

40. The applicant has stated that the process of sorting, crushing and compaction is critical to achieving an optimum grade of compacted material across the site. Acknowledging the regional planning considerations for the site, and the intent of HEASP to allow for light industrial activity, the crushing process represents a distinct land use activity which is inconsistent with the current rural zoning of the site and arguably questionable with the future light industrial zoning. Moreover, the crushing process could be undertaken off site independently of the remediation process, on land more appropriately located and zoned for such a use. It is considered therefore that proposal should not be considered until either the MRS amendment process has been finalised and the land use activity is located off site.

## **Community Consultation**

41. To ensure affected residents and community groups within the Shire of Kalamunda can communicate directly with the City of Swan on any matter related to this proposal, it is recommended that a group comprising representatives from the City of Swan and DER be formed.

42. In summary, the proposal whilst presenting significant environmental benefits for the site and its environs could also result in significant amenity and potential health impacts for residents within the vicinity of Adelaide Street with regard to noise, odour and air quality. It is considered that the proposal should not proceed in its present form until such time as the zoning of the site has changed, the land use activity located to a more appropriately zoned site and further investigations have been undertaken to address noise and health related management of the site.

*A new Officer Recommendation was tabled at the meeting; which included the addition of point 6 to the recommendation. The additional point is highlighted in the following Recommendation.*

RESOLVED OCM 101/2013

**RECOMMENDATION**

That Council:

1. Endorses the officer comment to be forwarded to the City of Swan in relation to the Proposed Remediation of Contaminated Landfill Site at Lot 20 Adelaide Street, Hazelmere.
2. Thanks the City of Swan for the opportunity to comment on the Development Application for the Proposed Remediation of Contaminated Landfill Site at Lot 20 Adelaide Street, Hazelmere.
3. Requests that a community consideration group comprising key stakeholders be formed to ensure all affected residents are fully informed as to the status of the proposal.
4. Acknowledges that whilst the remediation of the former landfill site is a preferable outcome, the Shire of Kalamunda strongly objects to a number of key elements in the application and requests that the following issues be addressed.

**Vehicle Access Route for Waste Transfer**

The applicant states that the access to the site during the remediation works will be from Talbot Road, via Lot 152 to the north, in accordance with the agreement with the owner of Lot 152. The applicant's submission proceeds to state that "In the event that temporary access via Lot 152 becomes unavailable, trucks will access the site from Stirling Crescent via Adelaide Street."

It is therefore requested that the Site Remediation Plan be amended to omit the statement relating to the potential use of Adelaide Street as an alternative access route to the site, as well as to delete the reference in Figure 9 of the applicant's submission. Additionally, the assurance of the continuous availability of the access from Talbot Road, through the Lot 152, should be given as a part of the application.

## **Noise**

The noise levels estimated to be received by noise sensitive premises submitted by the Acoustic Consultant Report of up to 76dBA is concerning given the expected length of the project is five years. The Noise Contour Map for excavation works supplied by Herring Storer shows that residences for 400-600m will be experiencing noise above regulation levels (45dB), with adjacent residences getting levels of up to 75dB. This is not acceptable, particularly when taking into account the duration of the project.

The Excavation Works exceed the assigned levels and are above levels considered reasonable for this type of work and duration based on advice from the Department of Environment Regulation. A further noise management plan is required and will need to consider measures to reduce the noise output such as temporary movable barriers, quieter equipment, no tonal reversing beepers on any equipment and scheduling noisiest operations at the least sensitive times.

Tonality from the machinery used in the Transfer Station has not been addressed in the noise report submitted; this may result noise exceeding the assigned levels and will need to be investigated.

## **Air Quality Management**

This plan does not include potential impact of odour on the nearby residents. Considering that there is sludge and other materials that might cause air pollution and health issues during excavation, these issues should be incorporated in the Air Quality Management Plan. Notwithstanding the measures in place to address air quality issues, the threat of wind-blown asbestos represents a significant issue for the Shire.

Advice received from DER indicates a significant amount of asbestos is contained in the proposed remediation site. Disturbance of the site and crushing of material has the potential to release a large amount of airborne asbestos fibres. As asbestos related diseases increase with intensity and duration of exposure this has the potential to cause significant health impacts of residents surrounding the development. A detailed asbestos management plan, including management of the crushing process, must be in place and approved by the DER, DoH and Shire of Kalamunda prior to works commencing.

## **Groundwater Monitoring**

The applicant indicates that the current groundwater is approximately between 3.7-11.7m below ground level. The applicant advises that based on the proposed redevelopment plans, the groundwater will not be intercepted during the works.

Groundwater monitoring will be implemented to assess water quality prior, during and post remediation works. It is vitally important from the Shire's perspective that groundwater contamination is monitored and reported on continually and the Shire of Kalamunda is kept informed of this process.

### **Land use Activity**

The process of stockpiling, sorting, crushing and compaction is a distinct land use activity that is inappropriate under the current rural zoning of the site and questionable under the future proposed light industrial zoning and therefore should not be supported.

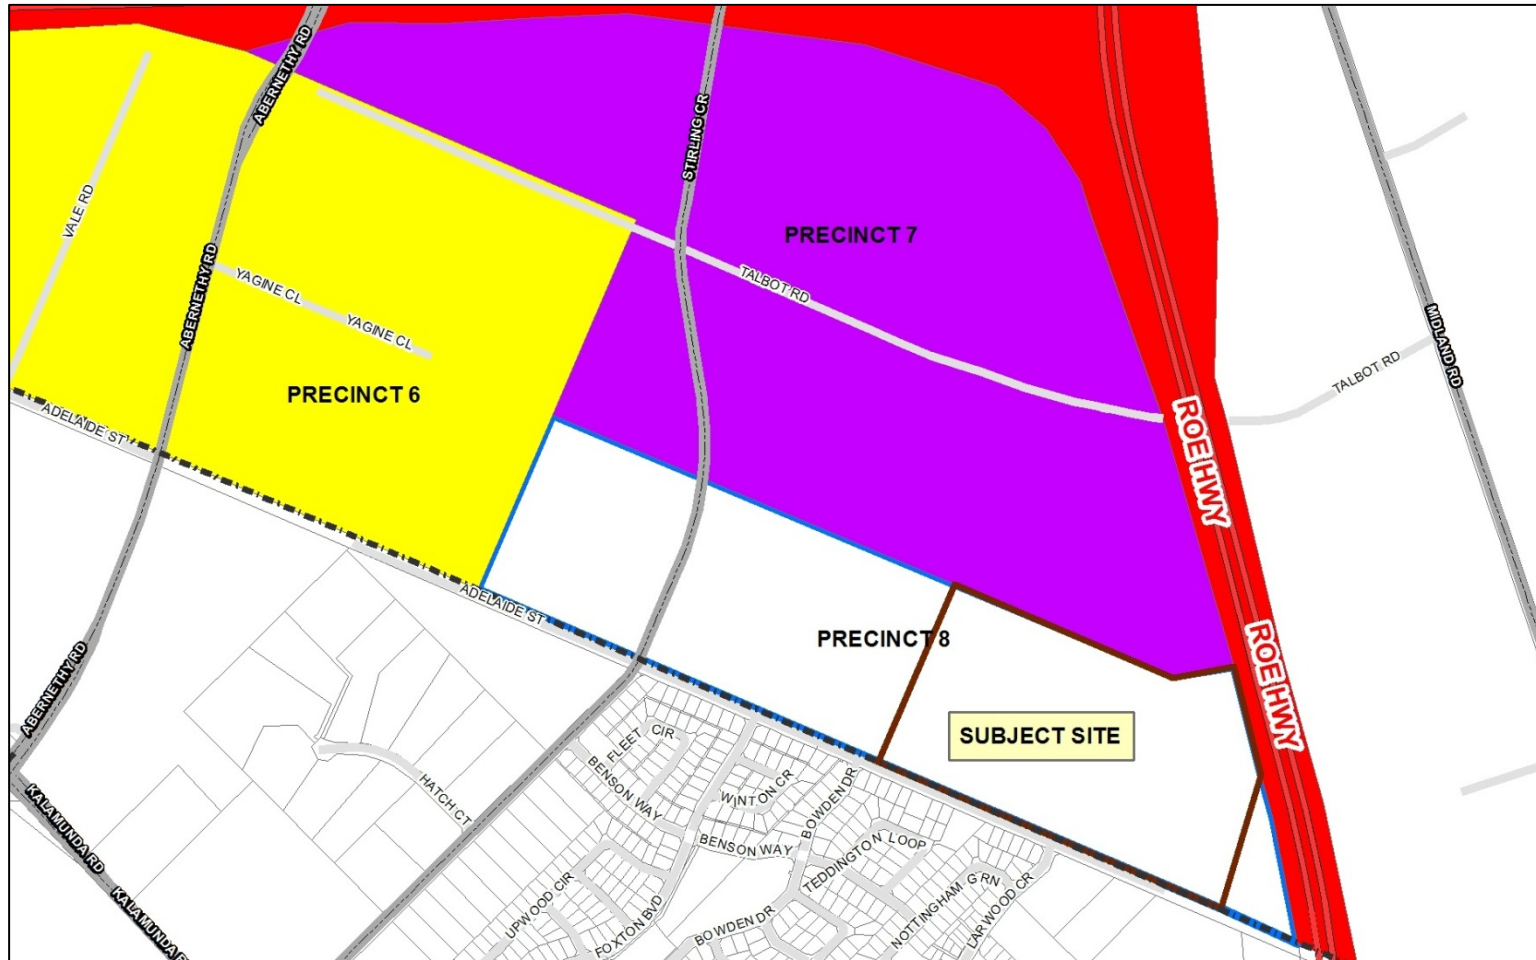

5. Requests the Chief Executive Officer (or delegate) together with Cr O'Connor make a deputation to the Metropolitan East Joint Development Assessment Panel to express the concern of the Council regarding the application.
  
6. **Request the Chief Executive Officer write to the Minister for Planning and the Minister for Environment, and their relevant agencies, expressing concern regarding the application and the proposed remediation plan.**

**PURPOSE**

1. To provide Council with financial reports on the activity of the Shire of Kalamunda with indications of performance against adopted budget.

**BACKGROUND**

2. The Statement of Financial Activity (Attachment 1), incorporating various sub-statements, has been prepared in accordance with the requirement of the *Local Government Act 1995*, *Local Government (Financial Management) Regulations 1996* (Regulation 34).

**DETAILS**

3. The *Local Government Act 1995* requires Council to adopt a percentage or value to be used in reporting variances against Budget. Council has adopted the reportable variances of 5% or \$5,000 whichever is greater.
4. The adopted percentage on value is applied at Program level and where applicable commentary and detail is provided where there is an excessive variance.

**Financial Commentary**

Draft Statement of Comprehensive Income by Nature and Type for the Twelve Months to 30 June 2013

5. This Statement reveals a net result of a surplus of \$527,539 against revised budget for the same period of \$1,226,128.

---

### *Revenue*

6. Total Revenue is over budget slightly by \$39,238. This is made up as follows:
- Rates are over budget by \$368,591. The reason for the increase is due to year end accrual bringing to account rates paid in advance which as per the Shire's accounting policy and the accounting standards needs to be booked in as revenue in the year received.
  - Operating Grants and Subsidies and Contributions, Reimbursements and Donations are under budget by \$196,255. Main variances of note were:
    - \$109,488 relates to POS contributions which the Shire has not accessed as the projects were in-complete at year end.
    - Reserve hire fees being down by \$18,912.
    - CACP packages in Community Care being lower than forecast by \$29,517. This however, will be offset by lower costs incurred.
  - Fees and Charges variance is under budget by \$57,782 which represents 0.54% of budgeted income overall. Main variances of note were being made up from:
    - Hall Hire income down by \$14,446. This income stream is dependent on users which is seasonal.
    - Income due from the Gym fees and sale of goods at Hartfield Park were down by \$32,186 due to the upgrade of the equipment resulting in the lower patronage and closure for some days to facilitate change over.
    - Refuse collection is down by \$23,611 coming from recycling of tyres and sales of tip passes being lower than estimated.
  - Interest earnings are under budget by \$89,310. This is a significant drop from budget but can be put down to two issues faced by the Shire:
    - Investment rate of return has dropped from close to 7% at the beginning of the year and now at year end earns 4% on its cash deposits.
    - The late issue of rates has resulted in shorter investment holding periods.
7. Other revenue is over budget by \$13,994. Most "Other Revenues" comprise of various fines and penalties which are difficult to predict. The variance is emanating from Ranger's area with a higher number of infringements issued.

### *Expenditure*

8. Total expenses are under revised budget with a variance of \$51,238. This represents a total variance of 0.11% over operating expenditure budget. The significant variances within the individual categories are as follows:
- Employment Costs are under budget by \$75,567 due to some vacant positions in various business units. This variance will change slightly as provisions are yet to be finalised.
  - Materials and Contracts is over budget by \$276,697 largely due to:
    - Over-run on the bulk verge waste collections \$357,563.
    - This has been offset by project related expenditure for example, HACC Services are down by \$308,034 as client service demand is lower than envisaged.
    - Infrastructure maintenance is higher by \$317,016 mainly in area of drainage and roads
  - Utilities were under by \$34,335 however this balance will change once all accruals are brought to account.

- Insurance expense savings of \$10,833. With all insurance costs now incurred, this amount is regarded as a true saving.
  - Other expenditure is under budget by \$73,743 which is primarily due to un-utilised donations to community groups for various activities.
9. The interest expense is lower than budget by \$9,504 which is put down to a timing difference between amounts accrued and the budget which is based on the debenture schedule.
10. Depreciation, although a non-cash cost, is tracking slightly under budget, reporting a small variance of \$21,477 or 0.22% of the total depreciation budget. The category most affected is Building depreciation.

#### *Non-Operating Grants*

11. Non-Operating Grants are over budget by \$999,909. This component is made up of various infrastructure projects which are underway. It should be noted that the Abernethy Road project has experienced delays and grant monies received will now be carried forward to 2013/2014. The Shire is currently in the process of reconciling grant income to project expenditure for 2012/13.

#### *Profit on Asset Disposals*

12. There was one property disposed of in the month of June which is Lot 501 Booralie Way for \$415,000. The variance of \$1,602,189 relates to the 3 lots on Lewis Road, now due for sale in 2013/14.

#### Draft Statement of Comprehensive Income by Program for the Twelve Months to 30 June 2013

13. The overall result comments are as above and generally each Program is within accepted budget except for Community Amenities, Recreation and Culture and Transport.

#### Draft Statement of Financial Activity for the Twelve Months to 30 June 2013

14. This Statement compares the actual to date with the Revised Budget.
15. The results to 30 June 2013 reveal a surplus of \$5,474,607. This was mainly made up of:
- Overall income, excluding rates, is under budget by \$1,931,542 with the bulk of the variance coming from fees and charges, profit on sale of land assets and interest income as explained above.
  - Expenditure is \$90,546 higher with the main variance in Employment Costs and Materials and Contracts. These have been commented on in point 8 of this report.
  - Rates generation is over budget and the variance of \$368,591 relates to prepaid rates as explained above in point 6.
  - Land Development for the Edney Road/Cygnnet Court and Hale Road has been deferred to 2013/14 resulting in an underspend of \$3,081,060.
  - Infrastructure projects made up of roads and parks and ovals worth \$685,565 being savings or projects carried forward.
  - \$141,075 un-spent on plant and equipment budget.
- These projects will need to be reviewed closely and a deferred project will only be carried forward into 2013/2014 if there is grant funding attached to the

project.

16. The current balance of \$5,474,607 is above the budget set at \$1,719,220 due to project based activities reflected above still in progress. This draft position will change as invoices and accruals are finalised for 2012/13.

Investments as at 30 June 2013

17. A total of \$21.4 million is in term deposits or online saving accounts. This represents a net decrease of \$1.4 million in cash deposits which can be related to reducing rates collection and significant increase in payment of creditors in the month of June.

The above is made of:

Municipal Funds	Reserve Funds	Trust Monies
\$8,043,177	\$2,160,827	\$11,194,202
		(includes amounts for Public Open Space of \$2,200,497)

18. The main change in deposit holdings in the month of June was the transfer of \$2.7 million from Reserves to the Municipal Fund account. This represents the amounts spent to date on capital expenditure, building maintenance and various other project related costs.
19. Average interest rates on term deposits have dropped as indicated previously by a cumulative 300 basis points with current investment rates dropping to 3.75% from 4.15%. Reserve Bank of Australia (RBA) has changed its cash rate from 3% to 2.75% with a negative outlook in the coming months. The cash rate is under review by the RBA as commodity prices tumble and mining firms start deleveraging workforce and assets combined with announcements from USA, Japan and Europe.
20. All deposits complied with the Investment Policy requirements and are no longer than 120 days.

Draft Statement of Financial Position as at 30 June 2013

21. Net Current Assets (Current Assets less Current Liabilities) show a positive result of \$5.12 million. The cash position has reduced slightly but is still an improved position of \$10.2 million when compared with the 2011/12 balance of \$8.2 million.
22. Trade and other receivables comprise of rates and sundry debtors totalling \$2.49 million outstanding.
- The rates balance has reduced by a further \$259,325 to \$780,675. This represents a collection rate of 98.62% to date. Debt collection strategies are being rigorously enforced to assist in collections.

- 
23. Sundry debtors have reduced by \$72,012 to \$1,129,398 outstanding. Of the outstanding balance \$1,026,897 represents current debtors. The main overdue debtors are:
- Forrestfield United Soccer Club \$13,277 - Loan instalments, reserve hire and operational expenses. Fortnightly direct debit of \$1200 is in place. Meetings have been held with the club committee members to determine a payment programme which is acceptable to both parties.
24. Fixed Assets have reduced by \$3,005,527 with the main area of reduction being in Property, Plant and Equipment asset category.
25. Provisions for annual and long service leave are currently stable at \$2.07 million with no significant difference from May 2013. The long term goal is to bring this liability down to a more manageable level.
26. Long term borrowings are at \$7.55 million with the inclusion of two loans:
- Kalamunda Water Park at \$3 million made up of two loans of \$1.85 million and \$1.15 million.

Attachment 1 Local Government Week Convention 2013 Conference Program and Professional Development Courses

**PURPOSE**

1. To advise Council of the details of the Western Australian Local Government Association's ("WALGA") Annual Local Government Week Convention ("LGWC") and seek nominations for attendance.

**BACKGROUND**

2. The LGWC scheduled for the first week of August 2013, is WALGA's premier annual event for councillors across Western Australia. It has been conducted for many years and provides an opportunity for councillors to attend a number of interesting conference sessions and professional development courses. There are also a number of networking opportunities.
3. The WALGA Annual General Meeting is also held as part of the convention.

**DETAILS**

4. The LGWC is being held from Wednesday 7 August to Friday 9 August 2013 at the Perth Convention and Exhibition Centre. Delegates can register for the whole conference or individual days as well as specific social activities.
5. Some of the key conference sessions and speakers include:
  - Between a Rock and a Hard Place – Aron Alston
  - The Evolving Global Economy and Our Place in it – John Doggett
  - The New Culture – Tyler Hamilton
  - The Power of Vision – Mike Munro
6. There are also a range of professional development courses being provided pre and post the main convention days. Details of both of these opportunities are detailed in (Attachment 1).

## OFFICER COMMENT

16. The LGWC is a significant annual local government event providing the opportunity for councillors to attend conference sessions on current topics with renowned presenters. There are also opportunities to meet councillors from across Western Australia and participate in networking.
17. An expanded professional development program for councillors is also offered in conjunction with the 2013 Convention.

*A Councillor requested clarification on the cost for the convention to Council and what topics that are covered will be of value to the residents of the Shire.*

*The Chief Executive Officer confirmed that there are costs for attending; if all three days are attended, then we pay a full delegate fee, otherwise there will be a smaller cost for attending individual days. The first day of the event will be free as this will be the AGM, there will also be additional costs for the social events.*

*The Chief Executive Officer also provided a brief rundown on the speakers and events that will be held over the course of the 3 days.*

*The Shire President indicated that she would be attending the AGM at no cost to Council and would like the Councillors that attend to report back on what information they learnt during the day.*

<b>SESSION 1 FUTURE FOCUS OPENING SESSION</b>	
9.00am	<b>BETWEEN A ROCK AND A HARD PLACE</b>  <b>Aron Ralston</b> In 2003, Aron Ralston's extraordinary human drama grabbed headlines around the world. An experienced climber and avid outdoorsman, Aron was descending a remote Utah canyon alone when an 800-pound boulder broke loose, crushing his right hand and pinning him against the canyon wall. After nearly five days – without water and with no hope of escape – Aron made a life-or-death decision. He chose life by severing his arm below the elbow, rappelling a 65-foot cliff out of the canyon, and trekking seven miles to find his would-be rescuers. Be taken on a riveting journey in which courage, perseverance, and the human spirit will defy the inevitable outcome. An ordinary man pushed to the limits, Aron demonstrates the human capacity for the extraordinary. <i>Aron Ralston appears by arrangement with Saxton Speakers Bureau</i>
10.15am - 11.00am	Refreshments

FUTURE FOCUS **3**

<b>SESSION 2</b>		<b>THE EVOLVING GLOBAL ECONOMY AND OUR PLACE IN IT</b>
11.00am		<p>In the days of Empire, it was England. Then WWII thrust our focus on to America as we all got on the consumer driven consumption band-wagon of the 1950s. In the 1960s and '70s, the emergence of post-war Japan as an industrial super power had us learning Japanese in our secondary schools and business-card etiquette in our universities.</p> <p>Throughout the reformist, economic rationalist, era of 1980s and 90s, we decided to acknowledge our geographic reality as part of South East Asia and deregulated our economy and evolved our workforce to embrace the information age. We set ourselves up to take on the 21st Century... and we survived the Global Financial Crisis in better shape than most of our contemporaries. Well, where do we go from here?</p> <p><i>Professor John Doggett, University of Texas</i> <i>Professor Doggett appears by arrangement with Sector Speakers Bureau</i></p>
<b>SESSION 3</b>		<b>THE EVOLVING GLOBAL ECONOMY: FRAMING YOUR FUTURE</b>
12:00pm		<p>How can Local Government leverage the future of State economic growth for opportunities for WA and Local Councils? This session will explore small community economic growth, the flow-on effects of the resources sector to the State and the role of government and the private sector in the development of WA regional towns.</p> <p><i>Leigh Coleman, Chief Executive Officer, Many Rivers Microfinance</i> <i>Warren Pearce, Manager – North West, The Chamber of Minerals and Energy of WA</i> <i>Michael Campbell, Senior Consultant, AECgroup</i></p>

<b>SESSION 4</b>		<b>CONCURRENT SESSIONS I</b>
2.00pm		All delegates are asked to indicate session preference when registering to assist with venue planning.
Governance		<p><b>Focus on Metropolitan Reform</b></p> <p>In June 2011 the WA State Government appointed the Metropolitan Local Government Review Panel to undertake the task of considering the current structures and governance arrangements for Local Government in metropolitan Perth and recommending improvements to maximise benefits to the community. The Panel completed the review in July 2012 and submitted their report to the State Government. The final report made 30 recommendations. At the time of preparing this program the State Government had placed the report for public comment and requested feedback by 5 April 2013.</p> <p>This session will discuss the current state of play of Metropolitan Reform and the challenges ahead.</p>
Governance		<p><b>Focus on Relationship Management</b></p> <p>We've all come across them: they are the people who drain you of energy instead of enriching you, the people who pull you down instead of raising you up, the people who require more than they can provide; the negative, whining, needy, manipulative people who can turn a happy day into a living hell. No matter how good our people skills are in general, most of us have problems with dealing effectively with these kind of people. Even those with really sharp people skills often get caught up in the polluting relationships (personal or professional) toxic people create.</p> <p>The good news is that there are effective ways to deal with toxic people and this session will provide a number of strategies to assist in these situations.</p>
Regional Development		<p><b>Focus on Regional Airports</b></p> <p>Airports are of crucial social and economic importance for Australia, particularly for regional and remote communities. Operating, maintaining, safeguarding and developing aerodromes in a cost-effective and efficient manner, with limited resources, often poses a major challenge to Local Governments. This session will address questions such as ownership, funding and management options for regional airports, the role of airports in economic development, how to manage the conflicts between airports and the surrounding community, and more importantly, what role does Local Government play?</p>
Community and Planning		<p><b>Focus on Active Ageing</b></p> <p>The State Government has released its Active Ageing Strategy and Local Governments are seeking options to support their ageing communities. Many Local Governments are looking at what infrastructure will be required over the next 20 years to support their ageing populations. This session will explore best practice and future trends.</p>

**SESSION 5 THE NEW CULTURE**

**Tyler Hamilton**

Tyler Hamilton was once one of the world's top-ranked cyclists—a fierce competitor renowned among his peers for his uncanny endurance and epic tolerance for pain. He started his career with the U.S. Postal Service team in the 1990s and quickly rose to become Lance Armstrong's most trusted lieutenant, and a member of his inner circle. For the first three of Armstrong's record seven Tour de France victories, Hamilton was by Armstrong's side, clearing his way. But just weeks after Hamilton reached his own personal pinnacle—winning the gold medal at the 2004 Olympics—his career came to a sudden end: he was found guilty of doping and exiled from the sport.

Tyler Hamilton will explore how culture drives behaviour – not just in sports, but in business and in life – and how values can be easily compromised as a consequence.

*Tyler Hamilton appears by arrangement with Saxton Speakers Bureau*

5.30pm - 7.00pm

**Mayors and Presidents' Reception at Council House**

Hosted by the Right Honourable the Lord Mayor Ms Lisa Scaffidi (by prior invitation); or the Sundowner in the Trade Pavilions.

**FRIDAY 9 AUGUST**

7.00am Delegate Service Desk open

7.30am - 8.45am

**Breakfast with Special Guest Ross Glendinning**

**Ross Glendinning**

Ross Glendinning is an Australian rules legend, amassing 325 goals in a 230 game career as a centre half-forward and centre half-back with the North Melbourne Football Club and West Coast Eagles from 1978 to 1988. A two-time winner of North Melbourne's Best and Fairest award, he won the Brownlow Medal in 1983 and was named centre half-back in the North Melbourne Football Club's Team of the Century. The inaugural captain of the West Coast Eagles, he won the club's goal kicking in 1987 and 1988; The Ross Glendinning Medal - awarded to the player judged best on ground in the Western Australian derby between West Coast and Fremantle each year - is named in his honour. Ross was inducted into the Australian Football Hall of Fame in 2000 and the WA Football Hall of Fame in 2004.

**SESSION 6 THE POWER OF VISION**

9.00am

**Mike Munro**

Mike Munro has led a life of remarkable persistence; through humble yet shocking beginnings: life in a monastery and physical and mental abuse at the hands of an alcoholic mother. Munro's passion for life, his shaping of his own destiny and his will to go on despite odds seemingly insurmountable, are characteristics we might all aspire to.

**SESSION 7 OUR FUTURE, OUR CHOICE**

10.45am

Things are changing at a pace never before experienced. Society is such that affluence is the norm, and social worth seems to be measured in "Apps" and "iGadgets". Our language is evolving through a mix of slang and text shorthand and planet earth is drowning in melted ice caps and choking on carbon. Population is swarming in cities, yet everywhere people are lonely and isolated. As the melting pot boils, tolerance and compassion take a back seat to violence and bigotry. Is this the future of Australia?

Hear from three young leaders who are doing something in the present to ensure a better future.

*Anne Johnson, Chair, Young UN Women Australia (WA)*

*Tim Kenworthy, Chief Executive Officer, Useful Inc.*

SESSION 8	CONCURRENT SESSIONS II
1.30pm	All delegates are asked to indicate session preference when registering to assist with venue planning.
Governance	<p><b>Focus on Relationship Management</b> (Repeat from Thursday)</p> <p>We've all come across them: they are the people who drain you of energy instead of enriching you, the people who pull you down instead of raising you up, the people who require more than they can provide; the negative, whining, needy, manipulative people who can turn a happy day into a living hell. No matter how good our people skills are in general, most of us have problems with dealing effectively with these kind of people. Even those with really sharp people skills often get caught up in the polluting relationships (personal or professional) toxic people create.</p> <p>The good news is that there are effective ways to deal with toxic people and this session will provide a number of strategies to assist in these situations.</p>
Governance	<p><b>Focus on Integrated Strategic Planning</b></p> <p>The State Government has regulated the requirement for Local Governments to undertake an Integrated Strategic Planning process that includes the requirement to prepare Strategic Community Plans and Corporate Business Plans. This session will explore these plans and focus on the preparation of these plans is much more than a compliance requirement, and outline the benefits of the integrated approach.</p>
Community and Planning	<p><b>Focus on Community Disaster Resilience</b></p> <p>Local Government is responsible under the Emergency Management Act 2005 for recovery after an emergency event. The State Government is proposing sweeping changes to the way recovery is managed in WA, which will impact on Local Government. This workshop will focus upstream on the importance of developing resilience in communities; communication; and, businesses' continuity planning.</p>
Community and Planning	<p><b>Focus on Native Title</b></p> <p>This workshop will provide an update on the Native Title settlement process and commence a dialogue about opportunities for working together into the future. Hear from Professor Len Collard, Australian Research Fellow, University of Western Australia, who is leading a project to create an understanding of local indigenous geography and contribute towards environmental tourism and reconciliation.</p>
2.45pm	Refreshments
3.15pm	<p><b>CONVENTION KEYNOTE ADDRESS</b></p> <p><i>Private Damien Thomlinson</i></p> <p>The story of Private Damien Thomlinson, an Australian veteran of the Afghanistan war, is one that has touched and inspired people around the world.</p> <p>It was while serving in Afghanistan with the 2nd Commando Regiment that Pte Thomlinson's life was changed forever. On 3 April 2009 whilst on night patrol in the Tarin Kowt District of South Afghanistan, Damien's unit drove over an improvised Taliban bomb. Damien suffered horrendous injuries in the explosion, which resulted in both of his legs being amputated. The damage to his body was so severe; it is a miracle he wasn't killed.</p> <p>Damien's positive attitude and impressive triumph against adversity has seen him become an inspirational mentor to many other wounded soldiers and their families, whose support networks he is committed to strengthening and publicising. Above all, Pte Thomlinson's incredible journey stands as proof that no challenge is too great and that the ANZAC spirit truly is alive and well.</p> <p><i>Pte Thomlinson appears by arrangement with Sixton Speakers Bureau</i></p>

Attachment 1	Overview – WALGA Membership 2013-2014

**PURPOSE**

1. To note the Shire of Kalamunda's membership of the Western Australian Local Government Association ("WALGA") and use of its products and services.

**BACKGROUND**

2. At the Ordinary Council Meeting on 22 April 2013, it was resolved (OCM 47/2013):

"That Council:

1. Requests the Acting Chief Executive Officer prepare a report outlining:
  - The costs associated with the Shire affiliation with WALGA.
  - The services that are provided by the Western Australian Local Government Association ("WALGA") to the Shire of Kalamunda."

**DETAILS**

3. WALGA is a private and independent entity which represents and supports Local Governments. It operates as a membership-based organisation, with funding coming from membership subscriptions, commercial operations and grants. WALGA lobbies and negotiates on behalf of 140 Local Governments in Western Australia.
4. Associate Membership of WALGA provides access to further programs and services, which Local Governments can subscribe to. It is not possible to access these without Associate Membership.
5. Membership and subscriptions are reviewed annually by the Shire and in 2012 a comprehensive review was undertaken and all subscriptions which were no longer relevant were discontinued. The largest of these subscriptions was the Employee Relations Service (Workplace Subscriptions) which has a forecast cost of \$13,159 for 2013/2014. Those subscriptions remaining are deemed to be essential to the effective running of the Shire.

- 
6. A review of the Shire's membership and subscription information is shown at (Attachment 1). This includes:
    - Associate Membership and Subscription – forecasted costs for 2013/2014 (and comparative costs for 2012-2013).
    - Information on programs not currently subscribed.
    - Complimentary services, included as part of the Shire's Associate Membership.
  7. Senior WALGA staff regularly consult with Ministers, politicians and senior bureaucrats and negotiate supplier agreements with senior executives of organisations with the capacity to deliver statewide services. As the peak lobbying and advocacy organisation, it has a strong influence on how policy decisions are made that affect the sector.
  8. Membership to WALGA enables the Shire to participate in Strategic Regional Forums, State Council meetings and the East Metropolitan Zone meetings. The appointment of Council Delegates (and Deputy Delegates) to the East Metropolitan Zone is reviewed every two years, following the Local Government elections.
  9. WALGA's vision is to assist Local Government in WA to:
    - Be built on good governance, autonomy, local leadership, democracy, community engagement and diversity.
    - Have the capacity to provide economically, socially and environmentally sustainable services and infrastructure that meet the needs of their communities.

#### **STATUTORY AND LEGAL CONSIDERATIONS**

10. Nil.

#### **POLICY CONSIDERATIONS**

11. Nil.

#### **COMMUNITY ENGAGEMENT REQUIREMENTS**

12. No community engagement is required as membership of WALGA is considered an operational matter.

#### **FINANCIAL CONSIDERATION**

13. Although there has been a increase in membership and subscription costs, it is considered that this is minimal and will be offset by cost savings as a result of the Shire's access to WALGA's network of suppliers.

## STRATEGIC COMMUNITY PLAN

### Strategic Planning Alignment

14. *Kalamunda Advancing: Strategic Community Plan to 2023*

OBJECTIVE 6.7 – To provide a business environment that strives for continuous improvement through the use of highly effective business systems and processes.

Strategy 6.7.3      Implement best practice initiatives and plans through benchmarking, networking and scans of the external environment.

## SUSTAINABILITY

### Social Implications

15.            There are no social implications.

### Economic Implications

16.            There are no economic implications.

### Environmental Implications

17.            There are no environmental implications.

## RISK MANAGEMENT CONSIDERATIONS

18.            If the Shire of Kalamunda were to discontinue membership of WALGA, it is considered that there would be a substantial increase in costs and impact on projects.

## OFFICER COMMENT

19.            Membership of WALGA grants access to its programs and services which are essential tools for the Shire. Those programs to which the Shire subscribes are vital, such as the Procurement Service, in providing the ability to leverage WALGA's purchasing power and network to provide best outcome (including financially).
20.            The Shire will continue to monitor, on an annual basis, its subscription to the programs and services available as a member of WALGA.
