HIRING MANAGER TO COMPLETE

Background and Proposal Please be as detailed as possible. Add extra pages where needed.

Background

The City has always had two FTE in the workshop to maintain the City fleet, plant and equipment. Finn Holland was the qualified motor mechanic and retired from the City December 2024.

The Workshop & Fleet Supervisor position was a merger of the Fleet Coordinator & Supervisor position having a focus on, technical knowledge, asset management and customer service. A new appetite to develop a skill set in leadership, technical maintenance systems particularly towards computerised asset management and maintenance systems that will influence team members to work towards the objectives of effective & efficient productivity towards asset maintenance and optimum replacement. As part of the upcoming ERP Plant/Fleet management has been identified as a need to capture, integrate and manipulate plant data.

To support this direction for the new Supervisor position, the workshop requires a go to role to take responsibility for the day-to-day operations. City staff go to the Workshop & Fleet Supervisor for faults and repairs which take the Supervisor away from the office. This position would be empowered to make decisions on repairs and work closely with the Supervisor to support the efficiency of the workshop. The role would have responsibility for the safety operations of fleet maintenance making sure the workshop is a safe working environment.

Business Case for Recruitment/Resourcing

Budget Considerations What are the cost implication of this request? Is this an additional cost to the existing budget or a redirection of existing funds? If a re-direction please specify which accounts. Be very clear on what the overall cost impact is to the City.

The 25/26 WFP TEC for this position is \$111,293.

We are proposing to advertise the salary range for this position level 9 step 1-4 \$89,004.83 - \$91,701.50 per annum depending on the applicants experience we receive, it is essential this position has motor trade qualifications.

This position is required to open the workshop up and make sure any fleet faults can be attended to first thing in the morning to keep site works operational, therefore a daily pre-start of 0.25 an hour is required - (9.1) \$16.89 - \$3,496.23 per annum.

The additional funds will come from the savings made from the removal of the Fleet and Stores Coordinator position - \$104,190.20 making a total City saving of \$100,693.97
