

# Great Eastern Highway Bypass Interchanges Project

## Reduced speed limits and lane closures from 13 to 21 December 2021

The Greater Connect Alliance has commenced various site investigation works to determine ground conditions for the new bridges and roads to be constructed as part of the [Great Eastern Highway Bypass Interchanges Project](#).

As part of these investigations, overnight works will be undertaken in the road verge along Kalamunda Road, just west of the intersection of Abernethy Road. The works will be undertaken in the area highlighted in red in the map below.

### Works will include

- Geotechnical drilling to obtain ground water, rock and soil samples.
- Potholing using a vacuum truck to dig into the ground to identify and confirm locations of underground services and utilities.

Each of these activities will involve project personnel wearing high-visibility clothing operating machinery and equipment on Kalamunda Road.

## Traffic management

To ensure the safety of workers, the section of Kalamunda Road adjacent to the works zone will be reduced to a single lane reverse flow. Traffic management personnel will direct traffic through the area.

Signage will be in place to alert motorists to changed traffic conditions and reduced speed limits of 40km/h will apply.

## Timing

Overnight site investigation works, and lane closures will occur between 7pm and 5am each weeknight from 13 to 21 December 2021.

## Noise

Nearby residents may notice an increase in noise from machinery and equipment. However, every effort will be made to minimise construction impacts as much as possible.

## Further information

We appreciate your feedback and will work hard to make sure we keep you informed of progress and any upcoming works that may impact you. If you have any questions or concerns, please phone 138 138 or email [enquiries@mainroads.wa.gov.au](mailto:enquiries@mainroads.wa.gov.au). More information on the Great Eastern Highway Bypass Interchanges project is also available at <https://www.mainroads.wa.gov.au/geh-bypass-interchanges>

*The Great Eastern Highway Bypass Interchanges Project will enhance connectivity, relieve congestion, and improve safety in Perth's Eastern Metropolitan Region, bringing immediate benefits for over 60,000 road users per day.*
